this comprehensive and systematic review of modern english presents a description of both the linguistic structure of present day english and its geographical social gender and ethnic variations

this book analyses speech related genres in early modern english providing ideas of what spoken interaction in earlier times might have been like

the future of english linguistics as envisaged by the editors of topics in english linguistics lies in empirical studies which integrate work in english linguistics into general and theoretical linguistics on the one hand and comparative linguistics on the other the tiel series features volumes that present interesting new data and analyses and above all fresh approaches that contribute to the overall aim of the series which is to further outstanding research in english linguistics

kevin de ornellas argues that in renaissance england the relationship between horse and rider works as an unambiguous symbol of domination by the strong over the weak there was little sentimental concern for animal welfare leading to the routine abuse of the material animal this unproblematic practical exploitation of the horse led to the currency of the horse rider relationship as a trope or symbol of exploitation in the literature of the period engaging with fiction plays poems and non fictional prose works of late tudor and early stuart england de ornellas demonstrates that the horse a bridled unwilling slave becomes a yardstick against which the oppression of england s poor women increasingly uninfluential clergyman and deluded gamblers is measured the status of the bitted harnessed horse was a low one in early modern england to be compared to such a beast is a demonstration of inferiority and subjugation to think anything else is to be naïve about the realities of horse management in the period and is to be naïve about the realities of the exploitation of horses and other mammals in the present day world

trends in linguistics is a series of books that open new perspectives in our understanding of language the series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science trends in linguistics considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages it regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language trends in linguistics publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints high quality standards are ensured through anonymous reviewing
